Fixed  
ladder systems  
according to  
EN 14122-4.

## Online planning system for fixed ladders

The new ZARGES planning system simplifies the process of configuring your fixed ladder system whilst taking all relevant standards into account. Just a few steps are all it takes to get your quotation, including drawings – that's how easy it is.

- Online configuration with real-time 3D visualisation.
- Instant quote including 2D drawings containing all important dimensions.
- 3D models for importing into your plans.
- Downloads for static calculations, measurement and check sheets, product images, presentations and much more.
- Tender documents for planners and architects.
